

Dear Honorable Consul General of the Republic of Korea, Mr. Kim

Dear Honorable Director of JETRO, Mr. Ishiura,

Dear Honorable former Director of School Education Tamil Nadu and current Honorable Member of Tamil Nadu Public Service Commission, Dr. Perumalsamy,

Dear appreciated speakers, dear partners and friends of the school:

Let me also welcome you on behalf of the well-wisher Mr. Dinesh Ramaraju, Founder of Supreme International Education from Singapore who sends his best regards to the guest speakers and students.

Today I'm looking back over the past years with GIS as a school and training institute for teachers- and we can proudly say that we have achieved a lot.

We trained over 72 teachers with our unique standards in the methodology of teaching. It's an exceptional good result for this school and teaching institute.

We awarded 41 junior teachers 12, senior teachers, 16 Executive teachers and 3 Coaches.

These teachers were sent out like arrows in other schools and other countries and have an impact on a change in education – for better.

This is the main objective of SIE Singapore to reach out to other institutes in Pan India to help them grow– in many ways.

These endeavors are equally shared and supported with our venture partner, world leader in school book publishing, sees a huge demand to support teachers with in their strong English syllabus with the needful teaching tools provided by SIE Singapore.

Today I have the honor with the help of my dear long lasting friend Dr. Perumalsamy the former Director of School Education, Government of Tamil Nadu and current honorable Member of Tamil Nadu Public Service Commission.

He had control over thousand of schools, which means he has a strong idea about education and its execution level.

He will now hand over the certificates on behalf of SIE Singapore to the dedicated teachers of German International School –for outstanding results.

Coming now to the awards:

Mrs. Meenakshi has given her thesis on „Experimental learning in teaching and the practical results at work“for her designation as a SIE Singapore qualified Junior Teacher in kindergarten.

Thank you Meenakshi for this great work.

Ms Lakshmi has given her thesis on "Art - reflecting on its true value in a child's development". She is from now on working as a SIE qualified Junior Teacher for Primary School.

Thanks Ms Lakshmi for this great work.

Let's give them both a round of applause.

I'm going to say thank you for participating and supporting our 4th School Anniversary and the inauguration of the boarding facility.

Thomas Pallushek
Advisor – German International School and Indian Representative of SIE Singapore

Chennai, on 24.01.2014
